about our Place Nl Service :-

Thank you for a lovely stay in your quiet and peaceful retreat in the big, bustling India! We especially loved the nice and comfortable breakfast/lunch/dinner corner - great to sit outdoors. The food was ~~also~~ superb - home cooked, just the right amount of spices and served with a smile every time. In general, staff were extremely helpful and especially we would like to mention our appreciation for the person who showed us the Sunset Point and, of course, the person who guided us to the bison. What a treat to walk straight into them!! But it was also very interesting to see the sugar harvest late in the evening as well as early the next morning. Even the little puppy dog was much appreciated by the female part of the group. Rooms were very comfortable and clean. We are all very happy with our stay and would love to come back some day!!

Thank you for a great stay!!
